

Case Study

Toolpak
Wrexham, North Wales

Technology: Solar PV
Sector: Packaging & Manufacturing
System Size: 52kWp
Annual Output: 46,000kWh
Annual CO2 Saving: 10,598kg

Toolpak, a leading tool distributor based in Wrexham, North Wales, got in touch with Rawson Solar to explore ways to reduce electricity costs.

Our team designed and installed a bespoke 52kWp solar PV system with 120 solar panels, generating over 46,000kWh of clean energy annually.

With the majority of this energy used on site, Toolpak now offsets more than 55% of its annual electricity usage, cutting costs and supporting long-term environmental sustainability.
